2<sup>nd</sup> Edition

15<sup>th</sup> August, '20

**Editorial :** On August 15<sup>th</sup>, 1947 Jawahar Lal Nehru addressed our Nation and became the first Prime Minister of India as we celebrated our first day free of the British Empire. I would like to give you a brief background about this. India had been under the British control since the 18th century. The Indian independence movement was a number of events spanning a period of 1612 to 1947.

Around 1919, Mahatma Gandhi declared a "Satyagraha" meaning "devotion to truth" against the British government launching a nonviolent campaign of civil disobedience. Over the next 25 years Gandhi became the face of the Indian Independence Movement. Pt. Nehru, Gandhiji's protege and Mohd. Ali Jinnah also played a prominent role in opposing the British rule. In 1942, Gandhi led the Quit India Movement ordering the British out of the country.

While the world was disintegrating into violence and war, in the 20th century Gandhi taught the virtues of truth, non-violence and peace. Following the World War II, with India becoming ungovernable the British decided it was time to grant it Independence.

Lord Mountbatten was named the Viceroy of India and he determined that India should be partitioned, very unfortunately, into the dominions of India and Pakistan.

This 15<sup>th</sup> of August, 2020 India will celebrate 73 years of freedom. We should not take this freedom for granted. We must strive to become better citizens who will inspire and empower others.

*"In a gentle way you can shake the world" — Mahatma Gandhi*

## My Grandma

Oh! My Grandma,  
I love you.  
When I look outside the window,  
I miss you.  
The brightest of all the stars in the sky,  
Is that you?  
Oh! My Grandma,  
I love you.

## My favourite game - Tennis

I love to play Tennis. Tennis is a physical outdoor game. It helps us to be fit.

To play tennis we need a racket, ball, net and a tennis court. To hit the ball there are many swings like forehand, backhand, service and volley etc. There are many stylish shots like banana, coffee and slice shots.

There are many events of tennis like US open, French open, Wimbledon and Indian wells. My favourite player is Roger Federer. The first mobile game made on tennis was named Tetris.

My aim is to be a top tennis player in the world. Currently, I am an AITA beginner and have started playing AITA tournaments.

## Wishes

If I was a witch,  
I would fly on my broomstick.  
Up in the sky,  
I would make a house,  
On the top of the clouds.  
If I was a fairy,  
I would wear a crown,  
That will not make me look like a clown.  
I would play all day, make new friends,  
And make sure that friendship never ends.  
And meet people who are hungry and want dishes.  
My wishes will never end,  
I will share them with my friend,  
If god can hear me, please grant my wishes!  
And this is how I express my poem "My Wishes".

## The school life

School life is one of the best phases of a student's life. We spend most of the time in a day at school. It is the temple of knowledge. It teaches us discipline, manners, and everything which helps us to be successful in life.

Not only this, but it also gives us memories which are assets. We make a lot of friends at school. Teachers also guide us like parents. Picnics, sports, and excursions are always favourite parts of school life for every student.

## Think positive and just do it!

Do not ever think the sky is too high,  
or the sea is too deep.

Do have confidence that I'll touch the sky,  
and dive deep.

No fear can ever stop and keeping telling,  
I can do it and I will do it.

Think positive and just do it.

And when I did it, I got to know that -

## Tree of goodness

Each tree is a tree of goodness. The good it does to others is countless. A tree provides fruits to animals, birds and human beings. It provides shelter to all.

During the day, the tree absorbs carbon dioxide and gives us oxygen to breathe. Its wood is used to make furniture, acts as a fuel to cook food and also helps in keeping our body warm. The cellulose fibres from the trees are used to make paper, which is very useful to us.

## Self - control

Self - control is keeping of our desires, actions, feelings and emotions in check. It is balancing of our wants and needs and acting matured. There are many ways to improve self - control and build good habits. For example, I love to eat sweets. My mother doesn't let me have too many of them. I only get to eat cookies and cake on rare occasions. So, when I get some, I eat them slowly. I save some for the next day. I don't want to eat them all at once or else they would be gone. I learnt to make my willpower strong through self-control.

## Online classes

Online classes started because of the disease corona and the lockdown due to it. Some people say that online classes should not be conducted because it may harm children's eyes. But according to me, online classes must go on. The reason is that just like food and water, learning is also our basic need. So, I am really thankful to my teachers because they give their time to teach us even when we are not in the class.

## My dreams and me

My dreams and me,  
Are very good friends.  
We follow no path,  
And there are no trends.

We meet at night,  
And never do we fight.  
We share our thoughts,  
And tie our knots.

Chocolates, cakes, fruits, I see,  
When dreams come to meet me.  
Sometimes I find them small,  
And wonder if we met at all.

And when my mother says,  
"Good morning dear!"  
Dreams say ' Bye! Bye! Dear!"  
They are many and not so few,  
One day for sure my dreams will be true.

## The joyful lockdown

On a Sunday morning, my  
father turned on TV. There  
was a speech going on by  
our Prime Minister.

The Prime Minister said that  
there would be a lockdown  
in the coming days. I did not  
know why everybody was  
sad. I realized that I was the  
happiest in the family. I  
loved the lockdown because  
I don't want to stay away  
from my cozy room.

I usually play with my  
friends. But now, I started  
spending time with my  
siblings. I also started  
reading books. Lastly, this  
pandemic taught us to be  
together during a crisis.

The strong coconut trees,  
Stand up to the seas.  
Trees give us clean air,  
Cutting them is not fair.  
Trees are around,  
Trees are to be found!  
Always trees share,  
But we leave them bare.  
New trees always arrive,  
But sometimes we don't let  
them thrive.  
Please plant more trees,  
It doesn't cost any fees!  
Help in making the Earth  
green.  
So, it is tidy and clean.

Leaving trees bare.

It is trees you should save!

## My dream

Dr. A.P.J Kalam said, "Dream is not which you see while sleeping, it is something which does not let you sleep". I am inspired by this great man. My grandfather fondly remembers an incident in his life and narrates it to me. He and Dr. Kalam had taken the entrance exam for Indian Airforce together. My admiration for him sprouted from this story of my grandfather. I aspire to become a theoretical physicist. My dream institute is MIT.

## Do good and the good will come back to you

Once there lived nine magical planets. They played, sang and spoke to each other.

One day, their friend, Earth, was very sad. The Earth said, "Humans are destroying me." Other planets said, "Go and punish them." Then the Earth said, "No! They are my children."

Then, a deadly coronavirus entered the Earth. Many died. Earth magically sent a solution in an Indian scientist's mind. Human beings were saved. Later, humans realized their mistake and again started protecting the Earth.

Everything has paused as if no motion.

Studies we do today also...  
Teachers teach us today also...  
But only their voices are known

## Save Earth, Save Life

There is a famous saying, "Save Earth, Save Life"

Steps to save our planet :

- We can start planting more and more trees
- We can stop using plastic
- We must stop wasting water
- We should reduce pollution

Let me express my thoughts in the form of a poem.

"Our Mother Earth has given us so much.

But with her, we lost our touch.

Let us end this pollution with a heavy punch

Let's plant trees and let's save water,

This would be the best way to say,

Dear Mother Earth, thank you so much!! "

रंग बिरंगे फूल भी हैं बड़े मगन,

## मेरी यात्रा ( भोरमदेव मंदिर)

भोरमदेव एक धार्मिक पर्यटन स्थल है। यह छत्तीसगढ़ के कवर्धा शहर से लगभग १६ कि मी. की दूरी पर स्थित है। मैं अपने मित्रों के साथ वहाँ घूमने गया था। यहाँ भगवान शंकर का प्राचीन मंदिर है। यहाँ हमने कई प्राचीन मूर्तियाँ भी देखी, जो प्राचीन कला का अदभुत उदाहरण है। मंदिर के सामने एक तालाब है, पहाड़ों के बीच प्रकृति का सुंदर नजारा यहाँ देखने को मिला। मंदिर से घंटियों की आवाज़ आ रही थी, हमने भी आरती में शामिल होकर भगवान शंकर के दर्शन किये और आशीर्वाद लेकर बहुत सी मस्ती करते हुए हम अपने घर वापस लौट आए। यह यात्रा मेरे जीवन की एक यादगार यात्रा थी।

## बारिश की मस्ती

देखो बारिश का महीना,  
 आए मम्मी को पसीना ।  
 क्योंकि मस्ती मेरी बढ़ गई,  
 मम्मी की त्यौरी अब चढ़ गई ।।  
 मैंने बोला भींगने दो मुझे,  
 मम्मी ने बोला मार पड़ेगी तुझे ।  
 मैंने बोला माफ़ कर दो,  
 पानी को अब साफ़ कर दो ।।  
 मम्मी खुश, मैं भी खुश ।।

**ज़िंदगी जीने का पूरा इंतज़ाम है ..... !!**

हे कोरोना, ऐसे ही समय नहीं कटता,  
ज़िंदगी जीने का पूरा इंतज़ाम .....

मंदिर, मस्जिद, चर्च सब बन्द हैं तो क्या ?  
योग, कसरत, नियमानुसार,  
माता-पिता में ही चारों धाम हैं,  
हे कोरोना .....

कभी समोसे, कचौरी के चटकारें हैं,  
तो कभी अपनों के साथ लूडो-कैरम के  
खेल न्यारे हैं,  
हे कोरोना.....

कहीं कविता, कहीं पेंटिंग, कहीं नाच,  
कहीं पाक-कला तो कहीं पाठशाला  
चल रही हैं,  
हे कोरोना .....

तुझे मिटना होगा हिंदुस्तान से,  
ये राम, महावीर, नानक का हिंदुस्तान है,  
संस्कारों और संस्कृतियों का हिंदुस्तान है,  
ये हिन्दुस्तान मेरी जान है ।  
ज़िंदगी जीने का पूरा इंतज़ाम है ।।
