**Editorial : 'School of the Air' -**  
this is what we are seeing today. But it is not new. It is an age-old concept of an all-inclusive term for correspondence schools of the

Primary and Secondary education for the children living in the outback of Australia. There were no computers, mobile phones or internet at that time, so school education was imparted via radio. The students without individual supervision would sit by the radio, follow the instructions being aired and could even proceed to join colleges for higher studies mainly due to this 'School of the Air'.

Today in these challenging times of virtual classrooms for educating children, we are reshaping learning for them in a similar manner. You do have the advantage of being able to interact with your mentors. This enables us to plan very meaningful futuristic online education to quench the thirst for knowledge in our young and enthusiastic educatees. It is onerous upon you not to trivialise these classes. Do not stop having fun, do what brings you joy but most importantly enjoy this time at home.

*"What we learn with pleasure, we never forget."*

## Save Earth save life

One, two, three,  
Save the trees.  
Four, five, six,  
Grow more trees.  
Seven, eight, nine,  
Don't waste time.  
Let's make the Earth,  
Clean and fine.

## My first tooth

It was a lovely day. I was enjoying my candy then suddenly I found something in my mouth. I couldn't chew that thing. Then I took out that thing from my mouth,

I saw that it was my first broken tooth.

## You are my Sun

You are my Sun,  
Playing with you is immense fun.  
You are my Mercury,  
My wingless fairy.

You are like Venus,  
Pops you are a genius.  
You gave me birth,  
On this Earth.

You are my Mars,  
As fast as a jaguar.  
You are my fruiter,  
Even on Jupiter.

Your lessons are my lantern,  
Protect me like the rings of Saturn.  
With you my life is luminous,  
No problem if it's Uranus.

Your speech seems a love tune,  
That reaches as far as Neptune.

Father, you are my Sun and I am your son.

## Let unity be our goal

Let's bring unity,  
To restore our country's dignity.  
Let's bring unity,  
As we have an opportunity.  
Let's bring unity,  
By gathering all communities.  
Let's bring unity,  
To increase our country's beauty.  
Let's bring unity,  
As it is our duty.....

## When God created teachers

When God created teachers,  
He gave us special friends,  
To help us understand his world,  
And truly comprehend.

The beauty and the wonder,  
Of everything we see,  
And become a better person,  
With each discovery.

When God created teachers,  
He gave us special guides,  
To show us the right ways,  
So we can all decide.

How to live and how to do,  
What's right instead of wrong,  
To lead us so that we can lead,  
And learn how to be strong.

Why God created teachers,  
In His wisdom and His grace,  
Was to help us learn to make our world,  
A better and a wiser place.

## Dream to fly

One day, while I was on the internet, I saw the launching of Chandrayaan - 2, that moment I decided to be a scientist. What made me curious was that how the rocket goes beyond the Earth's boundaries to various planets. That time I came to know that rockets can travel to the Moon & other planets. To chase my dream, I'll join ISRO & send my own rocket to the space. 'Mission Mangal' is my favourite movie. I use my leisure time to watch videos about space.

## I miss my school

Waking up early in the morning to go to school, I miss those days. My school is like my second home. My friends and teachers are like my family. We laugh, learn, play and eat together. We learn sharing, caring, discipline, behaviour and everything in school.

Thinking about my school brings a big smile on my face. I wish I could go to school. I miss my school.

## RKC and my future

RKC is my school,  
It will make my future.  
I will be an honest citizen,  
My character, it will nurture.  
I am proud to be in RKC,  
Where teachers are the best.  
Headmistress Madam is our star,  
She will take us far.  
It is a tough task uphill, but...  
RKC Can and RKC Will.

## My Magic Lamp

Once, during a morning walk, I saw something shining. It was a magical golden lamp. When I rubbed it, one genie appeared and told me that he can grant one wish. I made a wish for the corona vaccine to stop the destruction of the world. He granted the wish and the virus disappeared from the world and became happy forever. Suddenly, I heard that my mother was calling me and realized that it was a dream. I hope this dream comes to be true.

## I miss my school

I miss my school,  
Because it was wonderful.

My school bag was too heavy,  
Still, I loved to carry.

I miss my teachers and my friends,  
And the activities which we did on the sand.

Their teachings were so nice,  
So that we could become wise.

The boards were green and black,  
In the break, I ate my snack.

The clock was placed to see the time,  
In the art period, I made my slime.

I miss my school,  
Because it was wonderful.

## Things I learnt during lockdown

During lockdown we all are at home with our families and we are having a fun time together.

Every morning I do yoga with my grandparents which makes me feel healthy and fresh.

After my online classes, I do art and craft with my mother.

I love helping my mother in house cleaning and cooking different dishes.

Every evening, the whole family spends time together on the terrace where we play different games.

My father taught me cycling and skating.

I never thought that I would miss school, but I do.

## My Dream

Few weeks ago, I saw a dream. It was very strange. I dreamt that my father had a boat which could fly, sail and even run on the road. One day he thought of taking me, my sister, my mother and my aunt for sailing. When we reached the sea beach, my mother and aunt started swimming in the sea. I and my sister were flying in the sky riding on the boat. Once my father flew the boat round and round so fast that I fell down in the sea. The water was freezing cold. With that I suddenly opened my eyes and realised that it was nothing else but a dream!

## The Magic Show

Nearly 2-3 years ago, a magic show was held at Raipur. I went to watch it with my father. It was a very good one. I still remember that show and was thinking about the magician at this time of corona virus and the lockdown. On that particular day, the magician made a lady disappear from inside the cupboard. I believe that today, if he would say again, 'Abra ka Dabra', he will make corona virus disappear from India. I along with my friends would be so happy. We all will be able to go to school again. We are missing our school a lot. Magician Uncle! Please come and show your magic for the goodness of all...

## COVID 19 has spread.....

We cannot go outside because COVID-19 has spread. Doctors and nurses are treating the patients. All the scientists are trying hard to find the vaccine. Covid-19 started from China and spread over to other countries. The whole world is suffering from it. My mother and father are working from home and whenever they go out, they take all the precautions.

## Little birdie!!

Hey little birdie!!  
How are you up so early?  
Making circles in the sky,  
You keep soaring higher as you fly.  
Humans give you a little scare,  
While they should just stand and stare.  
They like admiring the colours on you,  
But the seconds they spend are few.  
Go home, take some rest.  
Singing and chirping in your nest.

I wish to buy a big car,  
Blue, Red or Black, a lovely car.  
The festive season is running,  
And my heart is roaming.  
My eyes twinkle to see this amazing car,  
Either Maruti or Honda, be it anything.  
I want to go on a long drive,  
With my family and enjoy my ride.  
I also want to build a car,  
Because I love most of the cars.

## Importance of Air

Air is a mixture of gases. It has no shape and volume. It has weight. There is no air in outer space. Air contains oxygen, carbon di- oxide, nitrogen. Animals & humans need oxygen to breathe. Plants need the carbon dioxide in the air to live. Air can be polluted by some harmful gases. This air pollution causes many problems such as smog, acid rain and global warming. It can damage people's health and the environment. We should stop pollution to keep our air clean.

## Our real-life heroes

Whom do you consider heroes?

Reel or Real Life heroes

Real-life heroes are heroes who selflessly serve society such as doctors, soldiers.

The medical staff are working tirelessly to save people's lives.

During this pandemic, our Indian soldiers are trying to maintain peace

Even our teachers are working continuously to teach us online.

We can tribute our real-life heroes by taking care of ourselves and society.

We should salute these real-life heroes.

## Be Good

One day a man was burning a tree and started to return home, but then he saw a gorilla chasing him. Also, a cyclone was approaching towards him. Just then, he saw a big tree. He climbed that tree to save himself. But the gorilla was very big, so he easily climbed up to the tree and grabbed that man. Gorilla then said, 'You just burned a tree, and now you want a tree to save yourself?'. Saying this, he pushed the man onto the ground.

Moral of the story - If you do bad things to others, bad things will happen to you also. Always be good, and take care of our nature.

 सारी रात उसकी राह तकते॥  
 जीवन का आधार है सूरज,  
 सीख नई सिखाता सूरज।  
 हार के आगे हार न मानो,  
 रोज यही सिखाता सूरज॥

## पढ़ो, सोचो, सीखो....

अगर आप अपने अन्दर एक आवाज़ सुने कि "तुम पेंट नहीं कर सकते" तो पेंट करने की हर संभव कोशिश करें और वह आवाज़ अपने आप गायब हो जाएगी

## "कोरोना वायरस"

चीन ने दिखाई होशियारी,  
दुनिया में भेजी कोरोना रूपी एक बीमारी।  
सभी कह रहे महामारी-महामारी,  
आ गई मुसीबत भारी।  
चीन ने.....  
जन-धन की हो रही हानि भारी,  
मॉल बंद, बाजार बंद, स्कूल और ऑफिसभी बंद हैं,  
चौतरफा, सब बंद ही बंद है,  
डॉक्टर, नर्स, और पुलिस पर जाऊं बलिहारी।  
ठप्प हो गई दुकानदारी,  
बढ़ गई है बेरोजगारी।  
चीन ने.....  
ज्ञान, विज्ञान, और वैज्ञानिक ने भी नहीं जुटाई कोई  
जानकारी,  
आओ सब मिल प्रण करें हाथों को धोएं बारी-बारी,  
अब तो भैया, घर में समाई दुनिया सारी। चीन ने दिखाई  
होशियारी।

## \* मेरा देश\*

सदियों से ये कहावत है आई,  
चीन भारत है भाई-भाई।  
पर चीन ने अपना रंग दिखाया,  
लद्दाख पर अपना डेरा जमाया।  
पर हमने भी ये क़सम खाई,  
चीन को हम पर नहीं करने देंगे चढ़ाई।  
जब बात हमारी मातृभूमि पर आयी,  
तब हमने संसार को अपनी एकजुटता दिखाई।  
चाहे देनी पड़े अपनी जान,  
सदा बनी रहेगी भारत की शान।  
बनेगा भारत एक आत्मनिर्भर देश,  
पूरे जगत में फैलाएगा प्यार का संदेश।  
धन्यवाद
