Education is the rudimentary aspect in the development of a country. If the youth of a society is educated a future is born. Teachers are the individuals who provide education which improves the quality of life thus leading to the betterment of both the individual citizen and society as a whole.

Children have a tendency to carry whatever they are taught at this tender age throughout their lives. They will use whatever they learnt growing up to influence and bring changes in the society.

Youth is the most impressionable of all, whether it is at preschool level ,via extracurriculars ,sports or traditional classes. Teachers are able to see a child's strength and weakness and provide proper guidance to bring them up to speed or push them higher. Teachers have the potential to shape the leaders of tomorrow in the best possible way for the society to build a positive and inspired future generation and therefore design a far superior society ,both on a local and global scale. In reality, teachers have the most important job in the world after parents.

If they are able to have a substantial impact on the students they have the power to change lives ,society, not just for the children themselves but for the lives of all.

Teachers can act as a support system that might be lacking elsewhere in the students lives. The influence of a good teacher can never be erased. They can be a role model and inspiration to go further , dream bigger. A good teacher is like a candle, it consumes itself to light the way for others .They will never let their talented students get away with not living up to the full potential. They will push the students to the limits bringing forth their creativity.

Teachers are capable of having the ability to shape opinions ,help form ideas, about society, life, personal goals.

Rajkumar College Junior School, Raipur (C.G.)

When their creativity is pushed, it affects the productivity and in turn they are likely to be entrepreneurial and make technological advances, ultimately leading to the economic development of a country.

Children become not only conduits of information but are equipped with tools to analyse solve problems and effectively use information.

Effective education system requires teachers that facilitate and support learning instead of just delivering content. They should be capable of using a combination of in-person and digital methods to deliver lessons and foster creative thinking, communication and collaboration. An extremely important aspect is to instill a love for learning ,how to persevere and have self control. Teachers dedication is shown by their round the clock work habits.

Teachers don't stop working when the school bell rings. They are checking notebooks, grading exam papers ,making lesson plans, communicating with parents , providing assistance to struggling students by arriving early or leaving late. Good teachers are those who believe in the power of education and the importance of providing children with good role models and are still in this profession due to that belief. They will always have compassion for their students, an understanding of the personal lives, academic goals and achievements. They will always be right there to cheer them on, push them harder. This teacher-student connection is irreplaceable and invaluable.

As schools gradually reopen after this pandemic, the teachers have a bigger challenge on their hands. They will have to rapidly assess the knowledge of students, identify learning gaps and adapt the teaching to the level of each student. They will also be required to provide psychosocial support and manage their stress along with that of the students as everyone is returning after very stressful time. There will have to be a very gradual modelling of the students towards a regular disciplined school life as in this pandemic they have been without structure and routine.

In spite of all the adaptations that our teachers made, converting to online classes, learning technology, some from scratch ,times ahead are going to be even more difficult. Yet the teacher is always prepared to look after the well-being of the student first and foremost, never expecting any accolades.

This is why a Guru (teacher) is always worthy of respect from everyone.

Teachers

Some teachers preach
But good teachers only teach,
Some teachers help you to learn
But good teachers help to discern,
Some teachers tell you to do better
But good teachers tell you to work harder,

You are the best teacher to me
For, you made ME the best
that I could ever be.

गुरुजी

कब खुलेंगे स्कूल कॉलेज के द्वार, सभी कर रहे
यही विचार।

हर कोई राह ताक रहा है, स्कूल कॉलेज का
ताला झाँक रहा है।

कोरोना ड्यूटी में तैनात गुरुजी, फिर भी
बच्चों से कर रहे,

ऑनलाइन संवाद, कभी पढ़ाते कभी लिखाते,
कभी कॉपी चेक कराते, अच्छे बुरे की
पहचान कराते।

मुश्किल दौर में भी हमारे, भविष्य की नींव
है थामी।

क्योंकि जानते हैं, बच्चे इस देश के भविष्य हैं।

जिन्हें हासिल करना है कई मुकाम,

गुरुवर का नाम रोशन करना है।

दिल से कोटि - कोटि प्रणाम गुरुजी!

सच्चा गुरु

जो धैर्यता का पाठ पढ़ाए..
वही सच्चा गुरु कहलाए।
संकट में जो हँसना सिखाए...
वही सच्चा गुरु कहलाए।
पग-पग पर परछाई सा साथ
निभाए...
वही सच्चा गुरु कहलाए।
जिसे देख आदर से सिर झुक जाए...
वही सच्चा गुरु कहलाए।

Our Teachers, Our Inspiration

Our teachers grow our plant of life,
So, in this world, we can survive.
Our teachers correct us when we are wrong,
So, we can get along.
Our teachers clear our doubts,
But we always shout.
Our teachers teach us right,
So, our future becomes bright.
Our teachers bear a lot of pain,
To provide the knowledge that we gain.

My Beautiful Teachers

A teacher is a great soul who is sent by God in this world. Teachers inspire hope, ignite imagination, and instill the love of learning. Everyone needs a push to kickstart their lives. I owe it to you my beautiful and intelligent teachers for their unflinching support and unwavering patience. You are the first mentor I've known, my best friend, and my helping hand. Thank you for guiding me towards the right path.

शिक्षक

सत्य न्याय की राह पर चलना,
शिक्षक हमें सिखाते हैं।
जीवन संघर्षों से लड़ना,
शिक्षक हमें सिखाते हैं।
साक्षर हमें बनाते हैं,
जीवन क्या है - समझाते हैं।
जब गिरते हैं हम हार कर,
साहस वही बढ़ाते हैं।
अक्षर हमें सिखाते हैं,
शब्दों का अर्थ बताते हैं।
कभी प्यार से कभी डांट से,
जीवन जीना सिखाते हैं।
सत्य न्याय की राह पर चलना,
शिक्षक हमें सिखाते हैं ॥

A Pen Is Mightier Than A Sword

When it comes to teachers - they are second mothers to us. They are a blessing from God. They are the building blocks of society.

Speaking of teachers at our school - Rajkumar College, we are blessed with the best ones. Despite this pandemic situation, they are making all their efforts in taking classes regularly. They teach us with all their love and affection. We are the replica of what values they inculcate in us. It is our teachers who teach us to value a pen as the saying goes, "A pen is mightier than a sword."

Cake For Teachers

Ingredients

- 3 cups all-purpose flour
- 1 1/2 cup powdered sugar
- 2 teaspoon baking powder
- 1 1/2 cup milk
- 2 teaspoon vanilla essence
- 1/2 cup cocoa powder

Method-

Step 1 - Begin by mixing sugar & butter. Whisk well until it turns light and fluffy with a whisker.

Step 2 - Put together the all-purpose flour, baking soda, and cocoa powder in the mixture. Add vanilla essence for a lovely smell.

Step 3 - Sprinkle some Maida on a greased baking tin. Line it with butter paper. Pour the mixture into the tin.

Step 4 - Place the baking tin in the microwave for 35 min under 180 degrees Celsius of temperature.

Step 5 - Insert a metal skewer/fork into the cake to check if it's ready.

To My Teachers...

Teachers hold a very special place in our life. My teachers are very amazing. They teach us so well. Sometimes they guide us as our parents and at the same time pamper us like our friends. Even during Covid times, they are working hard for our online classes, so that we donot miss our school. I respect them. They always inspire us as an ideal role model. The elderly say, "Teachers are like potters who mould us in the correct shape for our future." I love my teachers a lot and is eagerly waiting to meet them all.

Teacher As Creator

Teachers are the building blocks of each and every profession.

In terms of a Tree

Teachers are like the trunk of a tree, and their subjects are the branches of that tree.

Teachers are one of the milestones of our career path.

Teachers are also like a potter - the way a potter gives shape to the clay to make a pot, Same way a teacher guides us to give shape to our life.

A Teacher guides us towards success.

I Love You My Teacher,

Thank You So Much.
