Celebrations all over the world are meant to bring friends and families together, where they celebrate different occasions with joy and love. Different religions, cultures, have their own ways and occasions to celebrate but the basic ground rule is coming together and being 'one family'. In today's scenario, this is especially important, with more and more nuclear family set-ups with relatives and friends spread all over the world and the physical distances between them increasing all the time.

'We do and we must' make time to be together for any kind of celebration which goes a long way in fostering and building long term relationships. Also, attending of inter-cultural or interreligious celebrations, brings a definite understanding and tolerance for things we probably had no knowledge of, making us global citizens.

As we include ourselves in any kind of celebration, the brain is continuously learning, growing, exploring and developing love. Celebration always has an aspect of excitement and fun that's added to life. There are formal and informal celebrations - birthdays, weddings, religious functions. We love to celebrate the best things in life as they not only bring joy to everyone but also brings friends and family together to create every- lasting happiness.

Celebration does not have to be reserved for major events. We can celebrate a small win, a big promotion or have small religious functions at home.

We usually spend our days doing stress involved tasks at work or home, so any thing out of the ordinary does bring joy to our lives however trivial. Though preparing for any celebration, might bring stress to some, so one should just relax, organise things well in advance and unwind with loved ones, in the midst of this crazy busy lifestyle. Togetherness, smiles, laughter and hugs rejuvenates us to continue with our lives, feeling recharged! We must take the time out to do what we love and with the people we love.

Do enjoy with all your heart, all celebrations and keep creating fond memories.

Wishing you all a very Happy Holi.

शिक्षक

जीवन में जो राह दिखाए,
सही तरह से चलना सिखाए ,
माता-पिता से पहले आता,
हमेशा आदर-सम्मान पाता ।
पाठ पढ़ाए, डाँट लगाए ,
समस्या हल करना सिखलाए ,
काश मैं उस जैसा बन पाता ,
जो है, मेरा शिक्षक कहलाता ।

मेरा भारत

मेरा भारत मेरी जान,
मेरी आन मेरी शान,
मेरा अभिमान ।
करते हैं सब सम्मान,
हम हैं, एक दूसरे की जान,
मेरा भारत, सौने की चिड़िया
ये है मेरे दिल का टुकड़ा
मेरा भारत सबसे प्यारा
सब देशों से है यह न्यारा ।

MY FAMILY

We all love each other,
We all care for one other,
We eat together,
We laugh together.

When I cry,
Mommy makes me smile,
When I am sad,
Brings toys my dad,
My sister always fights,
But she hugs me very tight .

CORONA VIRUS

Coronavirus, the worst disease,
Hide in your homes if you please.
A disease killing lives,
And spreading negative vibes,
Symptoms like fever making us weak,
Doctor's help, we need to seek.
Started in China, now, the world is sick,
Let us unite and find a cure, quick.
You will have fever as I told,
You will get headache and a cold.
Following up, then comes cough,
Getting rid of, is now quite tough.
Wash your hands with some soap,
We'll fight the virus, that's the hope.
Sneeze and cough into a tissue,
Let's take some steps to tackle this issue.
Don't go to crowded places,
Don't be one of those thousand cases,
Visit a doctor if you need care,
Now, just make others, all aware.

AT MY SCHOOL

At my school, we run
At my school, we walk
At my school, we talk
At my school, we dance
At my school, we play
At my school we study and
learn new subjects but
due to pandemic,
we all stopped going to school
Dear God, please stop the spread
of this pandemic so that we all
can go at the school again.

COMPUTERS

I like computers because I like to do new things on the computer. In future, we all have to use computers for work. In our computer classes my teacher teaches us many things like how to use PowerPoint, MS word, MS Paint and how to change the background of the main screen.

Computers work on many operating systems like Mac OS, Windows, Linux, and Android. But I prefer using Windows, as it is tested by many people and easy to use.

We can do many things on the computer like sending an email, watching videos and movies, writing documents and making presentations.

A TRIP TO AGRA

Holidays are a time when we travel with our family. Last winter vacation we planned to visit Agra. We went to the Taj Mahal. It is one of the seven wonders of the world. A magnificent monument was in front of my eyes. Its beauty was mesmerizing. Taj Mahal was built by Mughal emperor Shah Jahan in loving memory of his wife Mumtaz Mahal. It had Persian, Islamic, and Indian architecture. It is made of white marble and many precious stones transported from all over India and Asia. 1000 elephants were used for this purpose. It took 22 years and 22000 workers who worked day and night to build this masterpiece. It had tombs of both Mumtaz Mahal and Shah Jahan in it. It is perfectly symmetrical in every way. It also changes colour at a different time of day. The more the guide talked about the monument, I grew more curious about it. We clicked a lot of pictures. There was greenery everywhere. We were there for almost 3 hours admiring the monument but not for a single second did we feel tired or hungry. I enjoyed every moment of my visit. It was a memorable trip of mine and the best till date.
