According to Genevan philosopher Jean Jacques Rousseau civilization came into existence because people recognised and agreed the common interest i.e. the welfare of the society.

In turn gaining the benefits of a social union such as solidarity, more security and a better life - without sacrificing freedom and equality.

Upon entering into the social contract and departing from the state of nature, citizens surrender their natural freedom, i.e. their unlimited right to do whatever they want and to take whatever they can, in exchange for civil and moral freedom.

In order for civilization to exist we imbibe and follow these rules and regulations laid down in society. A lawless society will be very short lived. We usually accept the variation that is most suitable to us. Across the globe there are various types of society with their own peculiar way of life. We choose to follow what we find suitable and rest we tend to neglect. Recently I saw a reel of a football match which had large number of Japanese spectators. When the match finished these people actually stayed back to clean up the stadium which they had not littered. This is their way of life.

"Cleanliness and order are not matters of instinct. They are matters of education and like many great things you must cultivate a taste for them." Melvin

Society is what we make it today. Let us come together to build a better society for our children to grow up in.

A Rainy Day

It was a rainy day. I was sitting on the couch in our living room and getting bored. After a while, my little sister entered the room and said, "Come on, Didi! Let's make a pillow fort.

I was excited when I heard that. I agreed to her idea, and we started to collect pillows from the entire house.

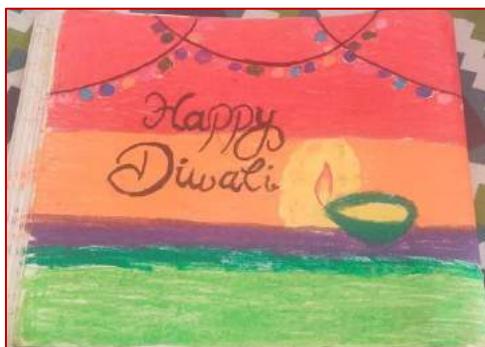

As soon as we did it, we decided that we should build the fort in my room.

We carried all the pillows to my room and spent a lot of time choosing matching colours and patterns and building the fort accordingly.

In the end, the fort turned out to be bright, colourful and precise.

We had a memorable time on that rainy day.

Teacher – The Guru

गुरु ब्रह्मा, गुरु विष्णु, गुरु देवो महेश्वर। गुरु साक्षात् परब्रह्म, तस्मै श्री गुरुवे नमः॥

I learnt this shloka in my dance class, where we chanted it.

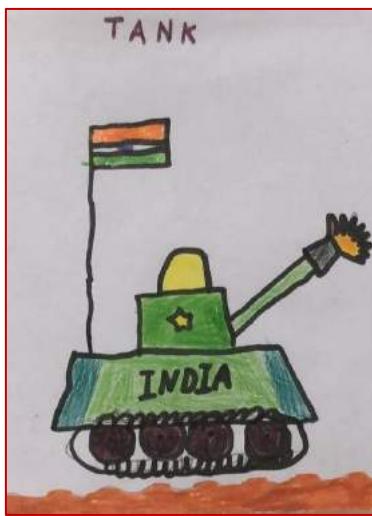

My teachers are very intelligent. They all teach us very beautifully and wholeheartedly. They are like potters who mould us into proper and strong shapes. It's only their knowledge and creativity that make us successful in the world.

Teachers' Day is celebrated every year on September 5 in memory of our second president of independent India, Dr Sarvapalli Radhakrishnan. My teachers are amazing and very hard-working; they always help us in every aspect. They keep us motivated to explore our surroundings and ourselves, too. Even during the COVID times, they did not make us suffer in any matter. They are our role models, the beautiful gifts of God for us. I am always grateful to them, and I owe my life to them. I salute them for all their endless efforts and passion for making our path of life possible. Happy Teachers' Day to all my lovely angels...

HAPPY TEACHER DAY

You were a teacher who believed in me when I stopped believing in myself. You were a teacher who loved me when I couldn't face myself in the mirror. You were a teacher who refused to believe that I could ever fail. Today, I am repaying your love and trust.

Sahajpreet Kaur, Class IV F

Independence Day

India got its independence on August 15, 1947. It has been 75 years since India became independent. This year, 2022, will be the 76th year of the independence of our country, marking 75 years of India's independence from the British. We celebrate – "Independence Day" on August 15th, and the purpose of celebrating is to remind every citizen of India that many people fought for India's independence and gave their lives for it. On this day, we do flag hosting and usually wear saffron, white, or green dresses as our flag has three main colours with an Ashoka chakra that is blue in colour. After we host our flag, we sing our national anthem, "Jana Gana Mana." We also distribute sweets among everyone as, on this day, we feel happy for our country's freedom. I salute every person who fought for India's independence and will thank them every day as we can now live our lives freely, independently, and happily in our country, India.

Teacher's Day

Teachers are the ones who guide and inspire us to achieve our best. They instil moral values and ethics. Teachers are true builders of society, and Teacher's Day is celebrated on September 5 every year.

I. When do we celebrate Teacher's Day?

On September 5, we celebrate Teacher's Day in memory of Dr Sarvepalli Radhakrishnan.

II. Why do we celebrate Teacher's Day?

The contributions of teachers never go unnoticed.

Teachers play many roles in overall development, such as:

- They teach children leadership skills.
- They instill discipline in young children for their better future.
- Also provide students with spiritual and emotional guidance.

I love my English teacher.

There is a teacher at my school, She is so nice and cool.

She teaches us many lessons, always with ease and passion.

She scolds us when we are wrong, because she wants us to be strong.

She wants us to be good speakers, therefore, I love my English teacher.

Losing is not easy

Losing is a word that breaks our hearts, and we get upset. Losing is not easy because when we work very hard and then lose, it's a very disappointing moment for us. But some other people can perform a bit better than us and can find success in their lives. It's always more important to participate than to win. By losing, we can learn a lesson and improve ourselves. If someone says "NO", that means you can't do it, so think of the word "NO" as a "Next Opportunity", then your result will astonish everybody. We should welcome our loss as we have welcomed our victories. We should also respect and support the people who lose their games because they have also worked hard and given a tough fight. We should also not feel bad about our losses.

Fruit Day Celebration

With an objective to create awareness among children about the importance of consuming fruits as part of a regular diet, our **KG I** kiddos celebrated Fruit Day. Children, representing the fruits of their choice through dress or a chart, sang the fruit rhymes with great zest, enthusiasm, and vigor, enjoying the moments of joy and happiness in the company of their friends and teachers. The occasion was used to teach kids the health benefits of fruits, one of Mother Nature's most amazing foods.

FRUIT IS A NATURE CANDY.

Community Helpers Day

"Community Helpers Day" is a wonderful way to broaden the child's horizons and help them learn about the world beyond their own community. Children love to learn all about the people who help in their own communities. With these goals in mind, the school organized a Community Helper Day for **KG II** students. They were dressed up as a nurse, sweeper, policeman, doctor, soldier, vegetable vendor, farmer, and teacher. They presented their views happily and told us that they were proud to be dressed as community helpers and loved their job.

Did you know?

Eklavya and Dronacharya statue

Hey kids, have you ever seen the *Eklavya and Dronacharya* statue on our campus?

It was sculpted by our then-art coordinator, Mr. P.P. Bose, in the year 1964. This statue was sculpted with Eklavya's imagination of Guru Dronacharya teaching Eklavya archery.

Nagpur is 180 miles away.

Nagpur Pole is located on the college's property, close to the Principal's bungalow. It was on G. E. Road when this Nagpur pole first appeared, indicating that this road led to Nagpur.

The college administration later purchased this land and developed it into our campus.
