The world of extracurriculars is truly limitless, and one has to consider certain liabilities while undertaking any project. There should be authenticity and dedication in any activity undertaken. Extra curricular activities do take up a lot of time outside of regular school and at times this tends to worry parents as well as certain students but they provide students

such opportunities as to gain life skills that would be crucial for their future success.

Academics can in no way replace extracurriculars, and vice versa. Not only are these activities a great way to keep students engaged, but they are always learning something new. Commitment and progressive responsibility help students develop their personalities, gain confidence, and become ideal citizens. Extracurricular activities allow students to learn about themselves and their interests. They can move forward in the fields of architecture by building a model; culinary excellence by hosting a food stall; and music and dance by performing on stage.

They develop skills that will help them in their future careers and lives.

These are crucial for students as they help improve social skills, make more friends, and get involved in activities that were not accessible to them otherwise. Students can find their passion in life by indulging in these activities.

Extracurriculars are a critical part of your education. They demonstrate who you are outside of the classroom and provide an opportunity to showcase your leadership skills, at times along with community involvement. Ambition and initiative, along with a cohesive personality, are all illustrated by participation in extracurricular activities.

Extracurricular activities are pursued in addition to the normal course of study. All such activities require a consistent time commitment, a degree of responsibility and initiative, and in most cases, a level of leadership not demonstrated in the classroom. These activities teach life skills that are not actually taught at home or even in school. They learn about teamwork, develop strong communication skills, and experience facing an audience from the stage with confidence, time management skills, interpersonal skills, and cooperation with others.

Extracurricular activities are an essential part of a child's development. They increase the child's confidence, allow them to become more social, and help them develop a focus on the manifold talents that they may have. All this is very important for the mental health and well-being of the child.

It is extremely important to consider academics and extracurriculars as two sides of the same coin and try to bring about the right balance between education and fun for our children.

Wishing you a very happy and prosperous 2023.

## My Friend – Jackal of the Forest

I went to Kanha National Park recently. We were going on the Jungle Safari in a Jeep. It was raining. We saw a jackal walking across in front of us when we were about to cross the river, and the jackal also stopped as soon as it saw us. We had to get out of the Jeep, but we were scared. But Jackal did not move from its place till we crossed the river. The jackal was looking at us as if he wanted to be our friend. So, I waved my hand to say goodbye. At that moment, I made Jackal my friend.

## My summer vacations

My favourite season is summer, and in summer we can eat ice-cream, watermelon, mango, etc., and in summer vacation we can do anything that we like, like playing cricket, football, or cycling with friends, and people go on trips like going to a hill station.

During my summer vacation, I decided to take a trip to Rajasthan with my family, visiting Jaipur and Udaipur. Jaipur is the capital city of Rajasthan and is known as the "Pink City." There are many monuments to see in Jaipur, which is also a tourist destination; Udaipur is also a tourist destination, and it is large; we have also seen the Hawamahal in Jaipur and gone boating in Udaipur.

## New Year Resolutions

After every new year's party, everyone talks about their new year's resolutions. So, this year, I decided to make New Year's resolutions for myself.

My new year's resolutions are:

- I will start doing my work on my own, like making my school bag and filling my water bottle.
- I will read at least one paragraph of the newspaper every day.
- I will water all the plants in my house every day.
- I will not take a screen time break daily; instead, I will prefer playing in my free time.
- In the morning, I will wake up quickly for school and not take much time getting ready.
- I will drink lots of water without my mom's reminders.
- I will be on time for my dance and gymnastics class.

These are my new year's resolutions. What are yours?

**FATEH SINGH CHHABRA, CLASS II G**

## My Favorite Player

My favourite player is Ronaldo. His full name is Cristiano Ronaldo. His jersey number is 7. He is the best player in football. He plays for the national football team of Portugal. Ronaldo was defeated in the FIFA World Cup quarterfinals by Morocco. He is also the captain of the Portuguese football team. He is popular as CR7.

## Winter season

Winter is the coldest season.  
Snowfalls in the winter season  
The nights are so long and the days are so short,  
The sky is dark and the ground is white at night.  
It's winter it's winter  
We are feeling cold.  
It's the time of year to spread joy.  
I love the winter season.

## Different Shades of Life

We face different shades of life,  
Some might be bad, and some might be nice.  
Happy, sad, angry or bad whatever it is,  
We should enjoy its premises.  
The smile will last for two seconds and then turn into tears,  
To listen to the story that no one hears.  
Just like the flavours of a cake and a slice,  
There are different shades of life.  
Whatever changes take place,  
We should handle them with grace.  
So, just for a while,  
Make a smile!

## Why is education important?

Education is important in everyone's life. Every child should be educated properly and nicely. Education determines the quality of everyone's life. Education improves knowledge, personality, ability, skills, etc. It is a tool that helps us achieve success and earn respect in society. If we are educated properly, we will get a nice job, be professional, and be able to make our parents proud of us. Moreover, we will be successful in our lives and be respected. So, every child should be educated, and schools should provide the facilities for teaching poor children.

## हमारे उस्ताद

कितनी मेहनत से पढ़ाते हमारे उस्ताद  
सारे जहाँ का इल्म सिखाते हमारे उस्ताद  
जहालत के अंधेरो को चीरकर  
इल्म की शमा जलाते हमारे उस्ताद  
मुसाफिर है हम मंजिलें इल्म के  
बेहतर राह दिखाते हमारे उस्ताद  
मिट्टी से उठाए और फलक पर कर दे  
राहों में फूल बिछाते हमारे उस्ताद  
लाजिम है उनका अदब हर इंसान पर  
किस मोहब्बत से बढ़ाते हमारे उस्ताद  
तंग-ओ-परेशान जिंदगानी उनकी  
दौलत-ए-इल्म लुटाते हमारे उस्ताद

## मेरा भारत

भारत की नींव इसलिए नहीं हिल सकती!  
क्योंकि...  
भारत ही सबकी नींव है।  
भारत है आधार जहाँ का, भारत है आधार वहाँ का।  
यह इतिहास नहीं होता है, वर्तमान संसार यहाँ का।  
राम कृष्ण अवतार यहाँ के सूर्य चन्द्र सा नाम यहाँ का। सब हों सुखी,  
सुखी हो सब।  
संत्यमेव संकल्प यहाँ का।

AARYAMAN SINGHANIA, CLASS 1G

Adhiraj Singhal KG II F

**Aditya Jain** of Class III D got one Silver & one Bronze medal at 15th RSFI State level Skating competition.

## Did you know...

The Legendary Sarangarh Clock Tower  
with the Lily Pond in backdrop.

**The Sarangarh Clock**, one of Raipur's oldest clocks, is a key feature of Rajkumar College and can be found in the centre of the campus. Raja Shri Jawahir Singh ji of Sarangarh built it in 1918 and gave it to the school as a gift. The ancient clock dates back more than a century.

**Battle tank T-55**, a war trophy of the Indian Army, was gifted to Rajkumar College, Raipur (C.G.) by Defense Force. Designed by Soviet Russia and considered the best in their class then, the T-55 battle tanks played a key role in India's victory in the 1971 Indo-Pakistan war that led to creation of Bangladesh.
